RHINO® COFFEE GEAR SCALES

A trustworthy coffee scale is a necessity for consistency in any aspect of brewing. This is why Rhino has introduced their own scales into the market, focusing on reliability and affordability. The Rhino Brewing Scale, Rhino Bench Scale, Rhino Dosing Scale, and Rhino Pocket Scale have been designed for all coffee weighing needs, including weighing espresso, weighing whole beans, and brewing pour over.

3KG - The Rhino 3kg Brew Scale has a large 3kg (6.6 lbs) weighing capacity, with selectable Auto-Off, Overload Protection, Tare, and Calibration features. Great for brewing pour overs, you can time your brew for the perfect cup.

2KG - The Rhino 2kg (4.4 lbs) Bench Scale features a large stainless steel weighing platform to fit your portafilter perfectly. Weigh every dose as you go and simply wipe down the easy-clean platform if you make a mess.

1KG - The Rhino 1kg (2.2 lbs) Dosing Scale features a detachable tray for easy cleaning and is a compact size for all of your dosing needs. Fits neatly on your bench and features a sloped display for easy reading.

600G - The Rhino Pocket Scale is a super compact scale that can easily fit in your pocket, in your handbag, or your travel brewing kit. Featuring a stainless steel weighing platform, the Pocket Scale has a weighing capacity of 600g (1.32 lbs) and includes overload protection and the ability to calibrate and tare.
